↑ south west

Add height to pond area with wild angelica, purple loosestrife, teasel, evening primrose. Feed the bees, moths and butterflies with viper's bugloss, Ox eye daisies, scabious, wild carrot

Create a spring lawn with shorter grass with primroses, cowslips, daisies, dandelions given space to grow. Plant spring and autumn crocus bulbs.

Pyracantha firethorn - berries and cover for birds. Flowers for bees etc.

Sweet briar rose or maybe garrya elliptica?

Hedgehog feeding station

Plant more hedging whips and increase cover for birds and nesting opportunities

Create a woodland floor, leave logs/twigs scattered about

Include bluebells, aconite, stitchwort, snowdrops, spotted dead nettle

Moving seating into corner will make it easier to observe wildlife
Surround with pots of herbs

House

Encourage more birds with water baths, ground cage feeders, window feeder on upstairs window. Have a range of food available - sunflower hearts, mealworms, suet, peanuts, nyger seed.
Have feeders at different heights and keep water baths clean and topped up.

apple trees, fruit bushes

ivy ↑ nettles, brambles, comfrey

MOTH FRIENDLY "ZONE"

Shed

White thalia daffodils planted around wildflower patch, ivy growing up shed

Veg

fox gloves

garlic mustard

mixed wildflower edging

nicotiana

knapweed

night flowering catchfly

sweet rocket

buddleia

oak

yarrow, dandelion and clover in lawn

Consider letting honesty self seed throughout the garden to create a drift effect.

Consider planting a climber along the fence on either side eg. lonicera periclymemum
